To Whom It May Concern:

Please take this document as a strong letter of recommendation for Kelli Jones. I have worked with Kelli for better than 7-years and unfortunately her position was eliminated at the end of January. The elimination of her job is by no means a reflection on Kelli, her skills or her work ethic. In fact, Kelli is an extremely talented and capable person who will be a great addition to any team.

Here is a short list of qualities that are evident to me as we have worked together for many years:

- ✓ Extremely hard working – Kelli will never watch a clock and will work until the job at hand is complete
- ✓ Very professional - Whether working with customers or co-workers, Kelli is always thought of as being a true professional
- ✓ Smart – Kelli picks up on things very quickly and never has to be told twice how to do anything and she is also open and capable of picking up on new technologies
- ✓ Committed – She is a true company person and will give the company that she is working for 100% and will never let personal obligations interfere with business.

Kelli is a hard working professional that would be an asset to any organization. My association with her has been outstanding and I would expect her to be an impact player at her next job. Should you have any questions, I would be happy to speak with you anytime. I can be reached at 973-780-0020 on my direct line.

Regards,

Howard Silverstein  
President
